

## PRODUCT SPECIFICATIONS

**Addalong™**  
**TRADITIONAL**  
Awning Canvas Collection

### ADDALONG™ AWNING CANVAS

Addalong Traditional – Australia's first 220cm width awning canvas that pioneered the modern and economical awning production by eliminating the need for unsightly and waste-generating joins for all standard sized awnings. Addalong Traditional continues to offer the same great patterns without any discontinued shades or striped designs from its original design collection. The Bio-Ultrashield protective coating sets Addalong Traditional apart from its competitors and has proven itself over many successful years. For those customers wanting traditional performing canvas, Addalong Traditional is the best fabric for their awning.
